

DEATH CLAIM IS AN ASSET

Supreme Court Renders Opinion Upon Subject of De-mise by Accident.

HEIRS MAY SUE ANYWHERE

LAWYERS REGARD DECISION AS ESTABLISHING A PRECEDENT.

That a claim for damages for death is an asset of the estate of the deceased person was decided by the state supreme court yesterday. The court also settled the jurisdictional question as to whether the heirs of a deceased person may sue for damages for the death in a state other than where the accident occurred. The court virtually held that suit could be instituted in any state where service can be obtained.

The same points were involved in three cases. John P. Lewis, P. Eccles and William Murray were killed in an accident on the Union Pacific railroad in Wyoming. The heirs of each of the deceased claimed the heirs for damages for their death. The heirs asked for the appointment of an administrator of all three estates, and the appointment was made by Judge Howell of the Second district, sitting in Salt Lake City.

Railroad Attacks Appointment.

Subsequently the railroad company petitioned Judge Howell to revoke the appointment on two grounds, as follows: First, that the only asset specified—the claim against the railroad—was not an asset at all, and that consequently there was nothing to administer upon.

Second, that the heirs had not been brought against the company in Utah to recover damages for deaths caused in Wyoming. Judge Howell refused to revoke the appointment of administration and the company took an appeal to the supreme court.

Higher Tribunal Unanimous.

The supreme court unanimously affirmed the decision of the lower court. Justice McCarthy wrote the opinion, and it was concurred in by Chief Justice Hatch and Justices Stratton, Edwards and Howell. The court held that a claim for damages for death is an asset within the rights in a state where service can be obtained.

By lawyers the opinion is regarded as one which establishes an important precedent.

VERDICT FOR MRS. CAPELL.

Jury in Federal Court Awards Her \$7,000.

Mrs. Mary A. Capell was awarded a verdict for \$7,000 damages yesterday in the United States circuit court in her suit against the Southern Pacific railroad. She was injured in a wreck at Wadsworth, Nev., on July 2, 1904. She asked for \$25,000.

In her complaint Mrs. Capell alleged that she had sustained the partial loss of sight in one eye, and at the trial evidence was introduced by her attorneys showing that not only was the sight of one eye nearly ruined, but that the sight of the other eye had become impaired out of sympathy for the other eye. The jury found that the plaintiff alleged she received the fracture of three ribs, injuries about the body, both externally and internally, and the general impairing of her health as a result of shock.

Court Notes.

The supreme court began its May term yesterday.

Judge Ritchie yesterday rendered judgment for plaintiff in the case of Myron W. Davis vs. J. E. Barnes.

The case of Albert E. Anderson vs. George H. Snelgrove and an account on trial before Judge Lewis and a jury.

The supreme court yesterday affirmed the conviction of J. W. Freshwater of Utah county. He was convicted of a felony.

Judge C. W. Morse is in Richfield holding court for Judge John Chidester of that district. He will resume sessions of his court here Thursday.

G. Trivino was sentenced to one year in the penitentiary for holding up a store yesterday for burglarizing the Hub clothing store on South Temple street last December. He was convicted of a felony.

Stephen Olds is on trial before a jury in Judge Armstrong's court for holding up Dell Wilson's saloon, on Plum alley and Second Street, last week. James Moore, who is accused jointly with him, demanded a separate trial.

Luman D. Luman yesterday petitioned for letters of administration on the estate of Mary Ann Ensign, who died in April, 1904. The estate is valued at personal property worth \$60 and some real estate.

The supreme court yesterday dismissed the appeal in the case of James Finlayson and respondent, vs. James Finlayson and respondent, et al., defendants and respondents, and Lewis and Lewis, et al., appellants, because of imperfections in the manner of taking the appeal. The case was from the Second district.

Annie R. Salmon yesterday sued the Utah Light & Railway company for \$5,000 for alleged personal injuries. She alleges that on June 19, 1905, while she was alighting from a car at First North and West Temple streets, the car started to move and she was thrown forward and that her nervous system was permanently injured as a result.

If you are contemplating buying a piano, now is the time to get it. High grade instruments made for San Francisco being sold at about half price. Carstensen & Anson Co.

MESSAGE SENT AT SEA.

Wireless Telegraphy Useful to Real Estate Man Homeward Bound.

An instance of the advantage of wireless telegraphy developed out of the recent disaster at San Francisco. The story is told in a recent issue of the San Francisco Examiner.

George Lent of the real estate firm of Hooker & Lent was in Paris when the earthquake and fire. He immediately embarked on a steamer bound for New York, and on the way sent a wireless message to a firm of architects in Boston to meet him at the pier in New York. The architects were on hand when the steamer arrived and he soon had them at work on plans for new buildings to be erected on his property in the ruined city.

COUGHS

New coughs are bad enough. Old coughs are worse, much worse. They always make one think of bronchitis, consumption. Ayer's Cherry Pectoral quickly cures new coughs. And it cures old ones, too. The next time you see your doctor, ask him why this medicine so promptly relieves coughs. Then follow his advice.

We have no secret! We publish the formulas of all our medicines!

SILVER SET FOR HICKEY

Employees of Rio Grande Western Give Expensive Token to Former Master Mechanic.

The attaches of the mechanical department of the Rio Grande Western presented to John Hickey, former master mechanic of that road, a silver set last evening. Mr. Hickey left the Rio Grande Dec. 1. He leaves today for St. Paul, where he will visit relatives and friends for three or four weeks. As a token of their regard for their former coworker, sixteen attaches of the Rio Grande's mechanical force purchased a silver set of sixty-four pieces. The set is in a mahogany case, bearing the inscription: Presented to Mr. and Mrs. John Hickey by the mechanical department of the Rio Grande Western, May 14, 1906. Each piece is engraved with an "H." The set comprises complete sets of knives, forks, spoons and other table silverware.

Mr. Hickey had gone to bed when men knocked at the door of his home, 120 East First South street, last evening. Expecting a friend with whom he had an appointment, Mr. Hickey answered the knock. He was greatly surprised to see a delegation of his former employees march into his home. Colonel C. W. A. Schnell presented the gift. Mr. Hickey managed to respond with a few words expressing his heartfelt appreciation of his former coworkers' kindness. The "boys" who purchased and presented the set are E. J. Hall, J. H. Snyder, H. Smith, W. E. Scare, W. Matthews, W. A. Schuch, W. W. Wipney, W. H. Talbourn, L. Holmes, William Embury, W. C. Lambert, H. Myers, A. J. Thorne, D. C. Cooper, C. H. Sherman, and Bert Piers.

Mr. and Mrs. Hickey will be absent some time from Salt Lake. They will spend a week in Denver and another week or ten days in Chicago before returning to St. Paul, where they will visit for several weeks. Since leaving the employ of the Rio Grande Mr. Hickey has been traveling in California and Texas.

FIRST CAMP ESTABLISHED

Preliminary Construction Work on Strawberry Valley Project Is Started.

District Engineer George L. Swendsen established his first construction camp at Thistle last Saturday in connection with the Strawberry valley irrigation project. Thirty men and twelve teams are now at work grading a spur just beyond Thistle for the Rio Grande Western railroad. The machinery, supplies and equipment for the project will be shipped out on this spur, half a mile in length, and from there freighted into the valley by teams.

Some grading has already been done on the road up Spanish Fork canyon to Diamond Fork. The reclamation service will build a road up Diamond Fork to the dam site. This work will take considerable time, but it is believed that before it is completed a camp will be established in Strawberry valley to commence preliminary work there. A stonemason and plasterer, both of whom are to be constructed at Thistle in the near future. It is possible that next week Mr. Swendsen will be authorized to advertise for bids for the power plant. The contract for the building of the telephone system into the valley has not been awarded, but Mr. Swendsen is looking every day for a notice from Washington.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at F. J. Hill Drug Co.

Many of those San Francisco pianos have been sold but the selection is still unbroken. Carstensen & Anson Co., 74 South Main street.

WINDING UP RELIEF WORK

Executive Committee Will Soon Make Full Report of Money Expended.

Within a few days the executive committee of the citizens' relief organization will make a report of the money collected and expended for the relief of the destitute people of San Francisco. This report will also show the balance on hand, which is between \$12,000 and \$15,000.

A meeting of the executive committee was held yesterday and the present status of the relief work was gone into thoroughly. A telegram was forwarded to Mayor E. R. Schmitz of San Francisco inquiring into the needs at this time in the way of relief. Upon the receipt of a reply to the message the committee will be able to forward the balance in the treasury to the purchase supplies with the money and ship them to the coast.

Company Attends and Taps Sound at Funeral of Captain Woodward's Daughter.

Little Catherine Adrienne Woodward, the three-year-old daughter of Captain J. E. Woodward of company E, Twenty-ninth infantry, who died Saturday, was a general favorite of the enlisted men at Fort Douglas, and many of them showed their grief by their attendance at the funeral yesterday morning. Co. my E was present in a body, and T. J. Blasingame blew "taps" over the little grave.

Interment was at Mount Olivet cemetery. Bishop Lawrence Scanlan officiating. A large number of relatives and friends from Salt Lake were present.

LARGE CROWD EXPECTED.

Several Thousand Tickets Sold for Keith-O'Brien Dance.

The annual dance given by employees of the Keith-O'Brien Dry Goods company tonight at Saltair is expected to bring out a large crowd. Arrangements have been made by the amusement company to provide a number of rolling stock to carry the great loads of pleasure seekers, and about fifteen trains will be necessary. L. P. Christensen's orchestra of twelve pieces will furnish the music. A large number of tickets have been sold at 50 cents each, including the round trip railroad fare. The proceeds of the dance will be turned over to the fund supported by the employees of the Keith-O'Brien company.

PAPERS ARE LOCKED OUT

Six of the Master Painters Re-ly in Decisive Fashion to Men's Ultimatum.

LONG STRUGGLE EXPECTED

TROUBLE MAY SERIOUSLY AFFECT BUILDING TRADES.

Another strike which may eventually involve a considerable number of workmen in Salt Lake here it is concluded begins today. The employing painters and decorators after several meetings have reached the conclusion that they cannot accede to the terms demanded by the men and have inaugurated a lock-out to begin this morning, this being the last day given by the union to send an answer to the men's ultimatum. All the men in six of the larger shops have been notified that they need not come to work today. Some of the smaller shops have not as yet decided to throw their lot with the larger establishments, and in these the men expect to go to work in the morning at the increased rate of wages.

The establishments which have joined to fight the workmen's demands are those of the Hamlin paint shops, W. A. Duval, George W. Ebert & Co., the Duvall company, the Midways and the Boyd Brothers. The latter form the nucleus of an association which it is expected will include the greater number of the employers, except the small shops which are not in the position to figure and have too many contracts pending and stand to lose too much. The other employers will probably give their men notice to-day.

Demands of the Men. The men have been getting \$3.50 per day and were contracted to work on Saturday afternoons. They ask for \$4 per day and Saturday afternoon off with full pay for that day. The question of the six shops has not been brought into the controversy but the employers may insist upon this later.

The men locked out by the six shops will number in the vicinity of 100. They will hold a meeting at 3:30 o'clock this afternoon in Labor hall to consider the situation and organize for the coming struggle. They claim their union is in a financial straits and that they are not thoroughly considered the financial phase of the question before they made their demands. They fully expect the other large shops to follow the lead of the six for the present but are not at all sure that all the spring work that is on hand they cannot long hold out.

Side of Employers.

The employers, on the other hand, contend that they have been unfairly treated by the men in only receiving ten days' notice. They say that most of their contracts were made some time ago and that if they gave in and accepted the men's ultimatum they could not possibly make anything out of their summer's work. Rather than keep open a loss they prefer to close down at once and say that they will save money by so doing. Had sufficient notice been given before the summer contracts had been made they might have acceded to the increases.

Some of the men said last night that the mistake of giving too long notice was made by the employers and the employers had time to get ready for a struggle. They believe they are asking only a fair wage and intend to get it or hang up all the work about the city this summer.

The question has already arisen in the Federation of Labor, how far one union may work on a job where another union is on a strike. It is likely to arise again in this instance and an attempt may be made to draw the entire building trades into the dispute.

MISS GODBE'S RECITAL TONIGHT

Miss Edith Rosina Godbe will appear in a song recital at the Y. M. C. A. tonight, presented by her teacher, Mrs. Martha Roy King. Willard Flashman will assist as flutist and Miss Edna Edwards as accompanist. The recital is composed of Mrs. King, Miss Carol Evans, Miss Judith Evans and Miss Hallie Foster will sing two numbers.

ONE-THIRD MORE.—The Utah Fuel company will increase both its coke and coal output 3-1-3 per cent this season.

SEVEN IN TEXAS.—The body of George Zimmermann, the Nevada mining man who died on the train en route to Salt Lake, was shipped to Austin, Tex., yesterday for interment.

MR. IGLEHEART WILL SPEAK.—William Igleheart will address the principals of the city schools at 4 o'clock tomorrow in the office of Superintendent D. H. Christensen.

STONE CUTTERS IDLE.—Local stone cutters are practically all idle, they claim, because the city authorities should have considered when they propose to change the cut corners.

LITTLE BODY LAY AWAY.—The funeral of Katherine, the 2-year-old daughter of Captain and Mrs. John E. Woodward, was held yesterday afternoon at the home at Fort Douglas. The services were conducted by Bishop Lawrence Scanlan and were attended by the intimate friends of the family only.

OPERATION ON CHILD.—Gertrude, the little daughter of Captain and Mrs. H. R. Woodward, was operated on yesterday for an affection of the lungs. Following a long illness with pneumonia, Mrs. Allen the operation and William Keller performed the higher cut, and the child was well and rallied and was reported to be out of danger.

FILES ON WATER.—William Luke of Myton, Utah, made application to the state engineer's office for a permit to appropriate water for irrigation purposes. The water is to be taken from the second river system in Wasatch county. A channel of water 200 feet in length is to carry the water to seventy acres of land.

LITTLE MCDONALD IS BURIED.—The funeral of Katie McDonald, the 12-year-old daughter of Superintendent John McDonald of the Utah Copper company's mine at Bingham, was held yesterday morning in St. Mary's cathedral. The services were conducted by Bishop Lawrence Scanlan and were attended by the intimate friends of the family only.

EXHIBIT AT LOWELL SCHOOL

Pupils' Work Is Shown in Great Variety and Programme Is Presented.

Parents to the number of several hundred gathered at the Lowell school last evening to view the exhibit of work and hear the programme presented by the pupils. The upper corridor was lighted for the occasion and here on a platform erected for the purpose a brief programme was rendered by the pupils. Two classes in first grade reading were presented, one under Miss Maud Potter and one under Miss Martha Watters, and they won the applause of their listeners again and again.

This was followed by a class of eighth grade pupils in Julius Caesar, who aroused favorable comment. Two vocal solos by Lillian Phelps followed and the programme closed with two selections played in excellent time by an orchestra of little folk under the direction of Miss Fannie Buckbee.

The exhibit of work was comprehensive, embracing all the subjects in the curriculum. The lower corridor has a deep border running entirely around it on which the work is mounted, a decorative appearance being given by the subjects being well illustrated and adorned with the upper spaces. Especially fine is the history and geography work of the pupils in the upper grades, both the subjects being well illustrated and adorned with maps of the regions treated or with cuttings mounted to illustrate the composition work. The manual training work is well shown in that shown in the other schools in quality and quantity is shown, especially from the girls of the three upper grades. The work is of the same general character, including such subjects as drawing, needlework, embroidery, and fine darning. The work of the boys consists largely of smaller trinkets, such as pens, frames and key racks, although one or two ironing boards and a foot stool are shown.

The landings on the stairway were transformed into pleasant little reception rooms, the girls of the eighth grade served lemonade to the visitors. The formal exhibit closed last evening, but the work will remain in place for a few days so that all interested may see it.

ARIZONA COWBOY FORGETS

Joseph McCune Pulls Out His Revolver and Shoots in the Air.

Joseph McCune, late from the cowboy camps of Arizona, dabbled with the demon, rum, yesterday afternoon and started up West Temple street flourishing a .45-caliber revolver. Once, with a whoop, he pulled the trigger and shot into the air. He immediately was awakened to the fact that he was not straddle of a bronco and out on the deserts of Arizona when the pedestrians rushed across the street to get out of the way.

McCune put his gun out of sight and ran for the Germania saloon at First South and West Temple streets. Police officers saw his dart into the saloon and went in to look for him. McCune was locked in the city jail. The charges of drunkenness and discharging firearms in the city limits was made against him. The names of the respective shareholders, as follows: Cert. Name. Shares. Amt. 1-A. G. Eklund..... 1,000 1.00 2-A. G. Eklund..... 40,000 40.00 3-A. G. Eklund..... 40,000 40.00 4-A. G. Eklund..... 40,000 40.00 5-A. G. Eklund..... 40,000 40.00 6-A. G.
